Eldery people who live alone should be taken care of.

All eldery people who live alone should be protected and taken care of, because they are like ~~a~~ children. Often they are left to a lonely life, without people who might take care of them. Old men can ~~meet face to face with~~ many dangerous situations. They always need help ~~of~~ ^{with} ⁵⁰ household.

Basically, their health is in a bad level and they need to take medication.

But there are any solutions of this problem.

One of them is using invention of the Japanese electronics company. They invented the microphone for tracking the situation in the house. And If something happens, family ¹⁰⁰ or security firms would come and help.

So, we should protect and take care of eldery people, because they raised us.

121 code

K1 - K2 - K3 - K4 - K5

2 - 2 1 1 1 = 75
