Nowadays people don't care ^{about} of their elderly parents enough. A lot of such people live alone, they walk rarely, they don't speaking with anybody too. So, I think it's a serious problem of ^{the} contemporary society.

We always refer that we were busy and don't have enough time, so we can't ⁵⁰ help elderly people. But ^{if} everybody ~~don't~~ ^{doesn't} buy useless things, alcohol or other different idle inventions, and will ^{with} help people on this money, the society will appreciate all what they have. We have to ^(implement) invite more inventions for elderly people or people with limited opportunities.

Let's ^{not} ~~don't~~ forget about people who ^{use} surround us.
