21

In the present time many mums and dads decide to become teachers for their children and stay<sup>up</sup> them at home instead of sending them at school. There are many opinions<sup>30</sup> about<sup>leaving</sup> this situation. Some people think that the best variant for teens is ~~to the~~<sup>gr</sup> home-education but other parents say that children must study at school. As for me, I agree with the second statement. 64

First, relatives can't become the teacher of history, ~~Maths,~~<sup>m</sup> and biology at one time<sup>lex</sup>. It is impossible to have deep knowledge<sup>sp</sup> of different subjects. Also, parents are not so strict to their children. For every parent his child is the best. 105 41

Second, children who don't<sup>cannot</sup> go to ~~set~~<sup>the</sup> school do not have enough friends. Every day they sit at home and do not have any contacts with other people. According to surveys young people, who go<sup>gr</sup> education at home, have many ~~troubles~~<sup>problems</sup> with communication<sup>sp</sup> with other people. While they ~~studied~~<sup>were studying</sup> at home, they became more introverted and selfish. 57 162

Third, teenagers studying at home have problems with health. ~~Their~~ Their life style is ~~not~~<sup>is</sup> active, because they don't go to the school ~~by feet~~, don't do sport exercises and so on. Only a very few percent of ~~them~~<sup>that type of</sup> students instead of watching films, ~~or~~ playing videogames prefer doing sport. 50 212

To sum up, home education has negative influence on teenager's life.

$$3 + 2 + 1 + 1 + 1 = 85$$
