Elderly people who live alone, ~~can be monitored~~
should be taken care of.

In our days we can see old people, who ~~are~~ sick and have no relatives. Of course, there are a lot of ~~of~~ care-compones. People, who help alone pensioners are volunteers. They ~~to~~ can look at them from ~~the~~ their's gadgets. Because elderly people who live alone can be monitored by new technology that analyses household sounds to ensure their safety. I think, it is not right, because ~~the~~ old people should ~~have~~ communicate with people, should talk ~~to~~ with real person. Not with computer.

So, we can see, that ~~old people~~ the elderly, who live alone, should be taken care of by real person; ~~the~~ friend, children, grandchildren, not by technology apparate.
